

Evangelism purpose of being digital:

Before church members will greet visitors and give them our visitor card to fill out.

We will have detailed visitor **cards** to give to people when they come to our assembly. If folks are late, we'll have someone quietly greet them then explain/invite them to fill out our cards.

We will give two reasons. 1. "So that we can write to you and thank you for coming." and 2. "So that we can text you our worship apps (songbook and Bible) for church worship."

The cards will also have activities the visitor can sign up for. These activities will be connected to helping them learn and grow in Bible truth, (salvation, worship, etc.) If they want to learn how to teach, we will have teaching classes that will share core Bible principles to help them learn about salvation, worship, doing evangelism, being faithful to God, etc.). If they want to do evangelism, we will train them in soul-winning evangelism materials. By equipping them and mentoring them, we will also be sharing the gospel with them. Each thing that they can sign up for can be used to help them be saved and become strong members. These inclusive activities will also build bonds with the church members and make them feel like they belong. These activities will also get our church members busy in the kingdom's work of mentorship, training and serving.

When we get their contact info we will write to them, even visit them, and thank the visitors for coming. We will also text them event group details for them to join according to the activities they signed up for.

If folks did not bring a cell phone, which is rare in this day and age for people to not have their cell at hand, we'll give them an **inexpensive tablet** to use that has our hymnal app and Bible app. Many people bring their Bibles, but for members or visitors who don't we will give them apps to use on their cell phones for quick access to quality worship digital materials.

Preparing visitors for digital worship:

Before worship church members will greet visitors and will explain how to download our digital apps. Once they sign up on our visitor card, we will have a premade message sent to them with our Bible app link and songbook app link listed.

We will also have the opening announcer briefly explain our digital worship and how to access our songbook and Bible, (if Bible is needed).
